DETAILED ACTION

Election/Restrictions

1. Claims 17-20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected tool positioning, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 11.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Haggar (U.S. Patent 3089248).

Haggar discloses a machine tool comprising a body (10) 1st, 2nd, & 3rd blocks (22, 24, 26, 28) mounted on said body (10) at 1st, 2nd, & 3rd angular positions respectively about an arc circumscribed by a radius about an axis of rotation, and said blocks having co-planer flat surfaces each with normals parallel to said axis of rotation, said body comprising parallel first (34) and second walls (X, see Attachment) and a third wall (Y, see Attachment) disposed normal and connected to said first and second walls, wherein said blocks are mounted on said first wall (Figure 1).

With respect to the preamble of the claims 1-3: the preamble of the claim has not been given any patentable weight because it has been held that a preamble is denied the effect of a limitation where the claim is drawn to a structure and the portion of the claim following the preamble is a self – contained description of the structure not depending for completeness upon the introductory clause. ***Kropa v. Robie***, 88 USPQ 478 (CCPA 1951).

All wabl Subject Matter

4. Claims 4-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not disclose or clearly suggest a machine tool wherein said first and second walls include recesses in each wall, in combination with the remaining limitations in the claims.

6. Claims 9-16 are allowed.

7. The following is an examiner's statement of reasons for allowance:

With reference to claims 9-16, the prior art of record does not disclose or clearly suggest a monitoring system for monitoring alignment of a spindle trunnion axis comprising a probe to measure locations of features on a machine tool monitoring feature control means for moving said spindle mounted probe and 1st, 2nd, & 3rd, blocks mounted on said body at 1st, 2nd, & 3rd, angular positions respectively along an arc circumscribed by a radius about an axis of rotation, in combination with the remaining limitations in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

8. Applicant's arguments filed 7/24/03 that Haggar does not disclose a machine tool monitoring fixture, they have been fully considered but they are not persuasive since the preamble of the claim is given no patentable weight, as noted in paragraph 3 above.

Art Unit: 2859

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
